JOB DESCRIPTION:

Under the direction of the Data Communications Specialist 2, use complex electronic measuring devices to operate, install, troubleshoot, and repair a wide variety of electronic equipment. Travel to distant and remote locations to maintain communications systems.

Includes:

- Building maintenance/installation/repair
- Generator maintenance/installation/repair
- Battery plant maintenance/installation/repair
- Check, analyze, and evaluate the operation of any electronic equipment
- Install and maintain various types of antenna systems
- Provide training to users who are not familiar with a particular type of radio
- Travel is required to reach a majority of sites
- Must be able to pass a background check

SPECIAL REQUIREMENTS (i.e. valid driver license, flagging certificate; First Aide/CPR Card):

Applicant must have a valid AK Driver's License, be able to pass an APSIN background check, and have one of the following certifications:

- BICSI Cabling Installer
- Vendor Specific Technician Certification
- Refrigeration and Heat Technology Certification
- State of Alaska Certificate of Electrical Fitness, Journeyman
- Associate Degree - Electronics
- General Radiotelephone Operator License
- Tower Climber/Rescue Certification
- Information Technology Certification

THIS POSITION REQUIRES THE INCUMBENT TO OPERATE (i.e. chainsaws, hand tools, snow plow, vehicles, sander, grader):

The incumbent will operate two to three times a week: cars, trucks, vans, spectrum analyzer, microwave power meter, data terminal test set, oscilloscope, frequency counters, frequency generators, and selective level meters.
